## Today You Need Healthful Food

GOOD FOOD is essential to good health—and never before was good health so important. Eat nourishing Grape-Nuts Flakes regularly, with milk, sometimes with fruit, too.

You see, Grape Nuts Flakes is made from two grains—sun-ripened wheat and malted barley. So it provides high quality carbo-hydrates and proteins, useful quantities of iron and phosphorus, and other food essen-

Decide now to make Grape-Nuts Flakes a "regular" on your breakfast table. Order from your grocer—either the regular pack-age or the giant economy size.

Black Outlook for Enemy
Today marks the beginning of the fifth
year of war for Germany when the Natis
sent their war machine across the western
sent their war although the Germans had fondly hoped they would back
down in much the same way as they did
at Munich. These hopes, however, were
dashed when the two Democracies declared war on Germany there exertly
sundered, Peland put up a valant defence but she was forced to yield in a little
over a month. Since then her people have
suffered unspeakable circlity as the
Germans exacted their venigance on a helpless nation. 250,000 were kind suppliers.

The outlook must appear rather dismal to the enemy leaders on this anniversary but there will be no peace for them until they are resting quietly under the surface of the ground. Not until then will the Poles be avenged for the triflible sufferings they have undergone.

The products affected include: Jams, Jellies, Marmalades, Extracted Honey, Comb Honey in Squares, Honey Butter, Maple Syrup, Maple Butter, Maple Sugar, Molasses, Corn Syrup, Cane Syrup, or any blended Table Syrup, Apple Butter, or Canned Fruit.

> On and after Thursday, September 2nd, 1943, it is unlawful for a consumer to purchase any of the above-listed products, except on the surrender of a valid ration coupon.

Coupons "D" in Ration Book 3 are to be used for this purpose. Coupon 
"D-1" becomes good September 2nd. Starting September 19th, two 
coupons become good every four weeks.

These products are being rationed so that there will be an equal sharing of the available supplies. Persons who do not use the coupons for these products may use them to acquire more sugar in addition to their regular sugar ration and canning sugar allowance.

CANADA'S STAKE IN THE FUTURE!

# SOON...BELLS WILL BE RINGING

throughout this vast Dominion . . . calling all young Canadians back to school.

In school will be taught not only reading and writing and how to calculate figures, but also: the history of this great country and the Commonwealth of Nations of which it is a member.

They, our Boys and Girls, safer from physical harm than the children on any other of the world's warring continents, will sit in peaceful classrooms, and will be instructed by thoughtful, cultured men and women.

By example and through the heritage of literature, Canada's children will learn about unselfishness and friendliness and the rights of their little associates.

And, in time, from out these schools will come a Young Canada reared and educated in the abiding tradition of Democracy and Freedom.

These, our very young people, are Canada's stake in the

To the school teachers of Canada has been given a task of inestimable worth and far-reaching consequence. At School Opening time we wish them happy and successful days in their great work.

A-TTENTION-all who love coffee! Now you can use two of your ration coupons every three weeks instead of every four weeks as formerly.

That means your ration is increased by onethird. And you'll get the utmost enjoyment out of every cup of coffee if you insist on Maxwell House. This famous blend just can't be beat for sheer downright goodness and here's why:

1. Maxwell House is blended from the very finest coffees available—each chosen for its own special quality of flavor, body or fragrance.

2. This fine blend is rousted uniformly by a special process that captures all its fragrant, smooth, coffee goodness.

#### To Employers and Employees:

THE 6th Compulsory Employment Transfer Order, issued under authority of National Selective Service Civilian Regulations, requires compliance not later than September 8th, 1945. After that date no employer may continue to employ any man covered by this Order, unless under special permit.

any man covered by into Overs, unless under special permit.

The first five Compulsory Transfer Overse listed occupations, and required compliance by all male employees in those occupations if (a) in an age and marrial class designated under the Military Call-up, or if (b) 16, 17 or 18 years of age, The Sixth Over repeats all occupations given in the five earlier Orders, and requires all other men from 16 to 49 years of age, (both ages inclusive) to become available for transfer to higher priority jobs, by registering at the nearest Employment and Selective Service Office.

Details of the Sixth Order were advertised in daily newspapers at the end of August-Lopies of the Order may be secured from any Employment and Selective Service Office.

If in doubt as to the coverage of this Order, or the pro-cedure under it, ask your nearest Employment and Selective Service Office.

FIGHTING

HEART

Mr. Picobac produced a letter from his breast

pocket.

"Listen to this", he commanded. "I guess I'm a pretty lucky guy", he read. "Here I am back as fe in Canada. No guas . . . no bombs . . . no no sais e. Canada. No guas . . . no bombs . . no no sois e. . . cola. . Good grub, too. Our canadian nurses are swell. Since I got that new half-pound container of Picobac, I feel like I'm on top of the world".

"Red Frazer may never throw a switch or jump a freight again," said Mr. Picobac. "But he's not poor. He's rich. Red's got a fighting heart. He'll do another job. Nothing can break him! Red enjoy's mild . . . cool . . sweet smoke, and I'm going to see he gets what it takes."

than we have yet seen. They are now in an American slang. He listened carefully excellent position to extend bombing of Germany.

Another factor which, has undoubtedly present the second of the employer who told his secretary. "There are two with the second of the had results in the allied policy of treating outputs of the second of the far-reaching results.

The debacle will produce benefits of in-calcuable value to the Allies. First, we may expect it will depress the spirit of the Germans more than anything else. Now they know they fight alone without hope of success. No matter how much they may believe in their own power they cannot help but know the war is going against the control of fall of an ally, huge casualties and steady withdrawal from advanced positions, constant bombing of industrial centres and the knowledge of fighting against a foe who has resources which have no limit.

We may expect the news will unsettle the political situation throughout the Balkans and should serve to influence Turkey into closer co-operation with the Allies. Bulgaria has shown signs of unrest Allies. Bulgaria has shown signs of unrest and there is every chance of that country being the next on the list to lay down arms. Hungary and figurania are other weak links in the enemy's defence system, and it remains to be seen how long the Germans can force them to stay in the struggle against hopeless odds.

We have much to rejoice about now that victory is in our gasp. The road, so far, has been long and arduous and our mistakes many and costly, but not so

costly as those the Axis have made. There costly as those the Axis have made. There is much to be done before we are finished with the fight but at least we have the anticipation of success. There must be no let-up in our determination to prosecute the war to its logical conclusion, and do everything in our power to support our ighting men with all the tools of war more than sufficient for their needs.

# MOVES

TO BIGGER AND BETTER QUARTERS

So that we can continue to provide the kind of tire service that has been the keynote of our success it has been necessary for us to move to new and larger quarters. We are now ready to serve you at our new location at 118 Front Street. This new tire station has been specially built for efficient service.

Because our steady growth has been made possible by the loyal support of our many customers, we wish, at this time, to thank every one for helping us to hring Eastern Ontario's most up-to-date tire service station to Belleville. We'll be proud to welcome you and continue to serve you in the efficient manner to which you have been accustomed.

Too Much Talk About Radar (Emporia Gastick)
So much talk about radar has been gring the rounds recently that the efficie of censorahly in Washington has sent out a hush order. The enemy knows we have it, but there's a lot of information about radar they do not have. It is a secret western that the secret western that the secret western than the secret was the secret with the secret western than the secret was the sec ship office.

When the evening rules the skies:
Whip-poor-willi
Long I've wondered what can be
That disturbs him so, that he
Shrieks to all incessantly:
Whip-poor-will!

Not till dawn this tumult ends:

Not till dawn this tumult ends:
While-poor-will!
Is it meant to summon friends?
While-poor-will!
Is it joy or is it fear?
Is some awful danger mear?
Are they deat who ought to hear?
While-poor-will!

To this cry I often wake:
Whip-poor-will!
Man's profoundest sleep 'twill break:
Whip-poor-will!

But I never yet have learned is it love approved or spurned Since no answer is returned: Whip-poor-will!

ane Brenner Pass has been one of the most used routes between Austria and Italy for hundreds of years. It was used many times by Teuton invaders of Italy during the Middle Ages and was known by them as "the route through the valley

of the Trent."

It is the lowest of the passes over the main chain of the Alps and the road from main chain of the Alps and the road from a reperience common to nearly every self-must amount directly southward the read to the famous old city of Innabruck. From there it ascends rapidly till it reaches Brenner, a distance of about the ready of the ready of

vehicles.

The Brenner is not only a passageway through the Alps for the Nazis but it can become a dangerous bottleneck. In winter months it is often impassable to armies with their equipment because of the heavy snows. The German forces, if driven back into the mountains, may find escape to Geermany rather a difficult problem. Continued bombing will also make the task harder and we rather imagine the Allies will take every opportunity to add to their embarrassment.

# OFFICERS' UNIFORMS

# FOR ALL BRANCHES OF THE SERVICE

Tailored to your measure and specifications

Since 1939, Tip Top Tailors has specialized in the art, of tailoring uniforms to measure for officers of the Navy, Army and Air Force.

While specifications must, of course, be rigidly adhered to, many officers exercise their privilege of designating their own quality, by having Tip Top Tailors build their uniforms to specific measurements and requirements.

That these officers have been completely satisfied is proved by the fact that today we are making more uniforms for officers than at any time during the War.

Over three decades of tailoring-to-measure experience is at your service. Our staffs are thoroughly familiar with all phases of uniform requirements and will be glad to advise you. The woolens which go into your uniforms are of a uniformly high quality - the tailoring the finest of which Tip Top Tailors is capable, which means the best there is."

We suggest that officers contemplating ordering uniforms, anticipate their needs and order as early as possible.

#### An Appeal to the Industries, Merchants and Citizens of Belleville and District:

During the next few days you will ogain be afforded the privilege of answering the appeal of the Community Service Campaign for money to assist the unfortunate and underprivileged and to help preserve the good character of our forces in uniform both male and female, who are still in

This year FOUR are asking for your help, the first below listed having

CHILDREN'S AID SALVATION ARMY V.O.N. Y.M.C.A.

This appeal is made to enable these organizations to conduct a home

One year ago the Citizens of this community gave generously to such

This year we ask you to be even more generous due to a fourth having been added, viz. (Children's Aid.)

All these organizations are doing a much needed work, none overlapping the other.

This being an annual oppeal, no further aid will be solicited for

Our Campaign opens September 20th, and Closes October 1st.

Belleville never logs in any worth while effort—so when the can vasser calls receive him or her with all your might.

This work must be carried on and it is only through the kindly spirit organization and individuals that it can be accomplished

May I commend this appeal to you, who are unable to give time and ask for a substantial subscription.

Sincerely yours,

C. R. MORGAN,

General Chairman Community Service Compaign

# TRANS-CANADA'S Wings are Spreading

MUCH has been written about the kind of world we will be living in after this war, but one fact stands out—no one country on this globe will be more than a few hours distant from any other.

With this peacetime Air expansion, the operations of T.C.A. will be closely allied—speeding the commerce of this Nation across the oceans and hemispheres. To this end, and based on the valuable experience being acquired by its personnel in day to day trans-Atlantic flying, T.C.A. is now preparing carefully studied plans.

F.C.A. makes direct connections with the major U.S. Atclines

In just five years T.C.A. has proven a necessary arm of Canada's transport, flying coast to coast twice dailynorth to Edmonton-south to Kindsor and New York -22,670 miles a day-carrying the men, mails and materials essential to the war effort. This is but a preladeof things to come.

Today the operations of T.C.A. are largely devoted to the prosecution of war, but in the peace to come the knowledge and experience of Canada's National Air Service, as accumulating now, will be available to Canadian commerce, travel, comfort and convenience, over national and international routes.

Thus will Canada take her place in the forefront of the Air Age to come.

# Produced in the Largest Aircraft Wood-Working Factory in the World

Specializing in the making of wood wings, Massey-Harris Aircraft Division has developed and expanded with Canada's aircraft industry until today the Company's Aircraft factory for producing such wings is the largest of its kind in the world.

When there was a desperate need of aircraft for the British Commonwealth Air Training Plan, Massey-Harris quickly brought into production a plant to make wings for the Avro-Anson Bomber.

And when the "Mosquito" that deadly, speedy terror of the skies was scheduled for production in Canada, Massey-Harris was able to undertake the making of wings for this outstanding British plane. Surely and steadily the tempo has been increased, so that now wings for the "Mosquito" are coming off the Massey-Harris production lines in ever-increasing numbers.

# "THERE'S WHERE OUR JOBS WILL BE"

10- 1×

W HEN peace comes Canada will have thousands of highlytrained airmen to be absorbed into civil life. Fortunately, the country's capacity abould be great; air jobe should be plentiful.

The North Country—destined to be a peace-time air-stop on the short cat to Asia and Europe—represents a huge potential for the lighting litera of today. It was opened by the intrepli prospectors who fire into the unknown... and searched out Canadjas mining wealth. It was opened no less by far-sighted Canadjass with fileranced the enterprise of the bush filera.

And so it has been in Canadian history; Canada's natural resources developed and added to her southable seath, largely by the money of private Canadian enterprise. So, too, it has been when natural resources have been Government-developed... for the source of that money has always been the same. The People of Canada!

Noorduyn—with its famous Norseman plane—has already played a big part in opening up our Northland. In meeting bush-flying requirements for small and roogs handing surfaces... for short take-offs with heavy loads... for ready conversion to aits, wheels, floats. The merits have been recognized by purchasee, in large numbers, for the U.S. Army.

And that is only the beginning of the trail the Norseman will blaze in all bush-flying... all through the Northland. Noordum plants in Montreal are now operating in an all out war effort in the production of Harvard advanced trainers for the British Commonwealth Air Training Plan and Norseman UO 64-Transport for the United States Army.

When peace releases our fighting airmen of today, we at Noorduyn will be ready. There will be a liner Norseman plane for fliers seeking new frontiers—not foes—to conquer.

Yes, the North Country! That's where the air jobs will be.

# OVER A MILLION MILES A DAY...

# JACOBS GARGRAFT

Each day the future Bomber Pilots of the United Nations are flying Jacobs-powered twinsengine Trainers more than 1,000,000 miles, from Canadian and United States training fields, acquiring the skill and precision that will devestate the factories and ship-yards, the railrands and power lines of the Axis—and that soon will blast the way for our Armies to Berlin and Tokyo.

Doy-in and day-out these sturdy engines are ready to go — from dawn to dusk and into the night — on their essential mission of qualifying the Bomber Pilots for their job of freeing the World from the ruthless selfishness of Hitler and Tojo.

And it was the initial demands of the R.C.A.F. in 1940, for engines for the Commonwealth Air Training Plan, that started the great expansion of Jacobs plant and production, and prepared the Company to meet the ever-growing needs of the United Nations that followed.

Lift up your eyes to the skies above Canada these days. ... You'll see something swifter and deadlier than has ever roared into action before—the amazing de Havilland Mosquito, fastest, most manoeuvrable bomber in the world!

You, as a Canadian, can feel mighty proud that Canadian organization and engineering skill can turn out such an astonishing plane. We, of General Motors, are privileged to be taking an important hand in its production.

From GM workshops in Canada, sleek, stream-lined Mosquito fuselages and nacelles are being rolled out, in ever-increasing quantities. Alone among automobile manufacturers in the Dominion, GM is being entrusted with this precise and exacting job.

General Motors' "know-how," adaptability, and fine craftsmanship are speeding the production of many kinds of vital war equipment—trucks, tractors, guns, shells, as well as Mosquito fuselages. And GM will continue to produce these urgently-needed supplies in overwhelming numbers—knowing it takes Volume for Victory—and that "Victory is Our Business."

## Planning Today for TO-MORROW'S AIRWAYS

Back of the Victory Drive that sparked a record output of Hawker Harricanes, sends Avro-Ansons winging into the skies and now is concentrating on Cartiss Dive Bomber production, is a clear-eyed vision of the future::: an airways future of global dimensions with Canada as hab of inter-continental Bying::: a future for which Cancer is planning and preparing so that when Victory comes, its immense accumulated resources of plane, equipment and accumulated resources of plane, equipment and

personnel will swing without peause, into production of aircraft for world-wide passenger and cargo operation. Designs and materials are being studied, models built, tests made on a scale full worthy of the objective. For it is recognized that to-morrow's Wings over Canada will be revolutionary. Commercial flying must step in one stride from swaddling clothes to maturity. Air-minded and air-staffed, Cancar is working to that end.

most wholly of one syllable. No one can call himself complete master

of the great range of English vocabulary today for it numbers probably between four and five hundred thousand words, infour and five hundred thousand words, in-cluding inflections, compound words and phrases. But no one can use all this weight of words nor does he require to do so. The greatest master of language, Shakespeare, used only about 15,000 and many cultured used only about 15,000 and many cultured people today use 20,000 or more words. But there are many people whose language does not extend beyond probably less than the 850 words of "Basic English." Some persons of limited means of, acquiring use of words are said to use probably not more than five or six hundred.

Those who have studied foreign languages.

ages, ancient and modern, know how difficult they are through the multitude of words, and rules of grammar and forms. To become proficient requires a great deal of time and study. But if there were other "basic" languages devised there would no doubt be a widening of the knowledge of other languages. In radio they seldom smile
Or jest or dance or sing.
The women whimper all the while,
For life's a tragic thing!

The men are always running off,
Forsaking faithful wives,
The children all have whooping cough,
The measles or the hives,

My Nellie turns the dial 'round

And lists from nine to noon
With interest that is most profound
To "Shattered Honeymoon."
"Her Seventh Husband" next she hears. Since sorrow is the style, They've run it now for two long years And never once a smile!

PLEA FOR FORCE

Oh, bitter may the war become,

Much bitterer than before, That sooner may the final drum Sound peace forevermore.

Against our mad, misguided foes Our mightlest forces send, And swift and furious be their blows That sooner war may end.

Grant them no rest by day or night Where massed are tyrant powers. But rather to our utmost fight Till victory is ours.

The greater now the force we raise For land and sky and sea,
The sooner will come happier days;
The sooner peace will be.

RELPFUL HUSBAND

On the heels of the assault force, protected by fighter pilots and fighting ships, the second wave from the sea brings heavy vehicles and light tanks.

Most difficult and dangerous of all war operations, taking enemy territory from the sea is complicated by thousands of supply problems. Not only must the army gain and hold a bridge-head, but every single item it needs to exist and fight must be brought by sea and landed under enemy fire. An endless supply of food, water, gasoline, guns, tanks, ammunition

Canadian army troops, fliers and naval men are trained in Canada for "Combined Operations". And fighting men from Canada are often chosen to be first onto the beach when the army strikes from the sea!

Vehicles from Canada, too, are taking part in seaborne invasions, carrying men and supplies deep into enemy territory. Reading between the headlines, 16,000 workers at Ford of Canada take pride in the performance of battle vehicles made and tested at Windsor, Ontario.

## SO YOU'LL' KNOW WHY ...

On September 20th, the Belleville and District Community Service Fund, consisting of the Children's Aid Society, Victorian Order of Nurses, Salvation Army and the Young Men's Christian Association, make their annual appeal for help. It was the kind generosity of the people of Belleville last year that enabled these organizations to carry on their fine work. In order that the public are well acquainted with these organizations and their efforts, short sketches of their activities are listed below:

#### THE CHILDREN'S AID SOCIETY

The Provincial Government has the supervision of the running of this organization, but they do not contribute funds that take care of the individual work. A grant is received from each municipality for each word taken care of. At the present time there is so much work coming under their jurisdiction that cannot be classed with the regular work and a considerable number of persons are being looked after continuously who cannot be classed as wards of the particular municipality and therefore there are no funds available for so vital a service. Your contributions make possible the continuance of this vital service.

#### THE VICTORIAN ORDER OF NURSES

The Victorian Order of Nurses is a branch of the parent Canadian organization with headquarters at Ottawa. This organization carries on from funds raised in the area covered by the local branch. This organization is untiring in its efforts to care for the oped, home nursing, maternal care, and other social service work.

#### THE SALVATION ARMY

The Salvation Army is entirely dependent on the generous donations of the people of this community. They care for the needy, comfort and aid those in distress, care for delinquents and faster spiritual welfare, and this work is entirely separate and in addition to their regular war services.

#### THE YOUNG MEN'S CHRISTIAN ASSOCIATION

Listed below are just a few of the many services the Y.M.C.A. provided for the year: 6705 service personnel were given free showers, swims, lowels, etc.; 7477 were provided with overnight accommodation at net cost; 45,859 made use of lobby facilities; 3584 were given free bowling; 26 Sunday programs were organized for the soldiers; 18 other Sundays tea was served. These and many other items blend together to make up a large contribution the Y.M.C.A. makes to the welfare and comfort of the uniformed youth and young fellows in this district.

Great Britain is also proud of the weapons she has been producing within 25
miles of the enemy. For a whole year
Britain stood alone and yet production of
weapons increased steadily for victory.

Win hearts and you have all men's hands and purses. — Burleigh.

JUST FOLKS (Copywright, 1943, Edgar A. Guest) By EDGAR A. GUEST FELLOWSHIP

This ever was the lot of man And will be ever to the end; Who bravely does the best he can Will never want for friend.

Within the human heart and mind Dwells always this, though high or low The wish to others to be kind As the days come and go.

This difference marks the human race From other creatures all:

Man will his fellow's peril face
In answer to his call.

And knowing hunger, thirst and pain And how the flesh can tire, He'll shield his brothers from the rain And share his food and fire.

## 'A'/omen of canada:

## The toughest battles are yet to come ... and you've got to help win them

There's reason to cheer! The first chink has appeared in the Axis armor.

Now there is something more than hope. We can have a new confidence born of the knowledge that the enemy has been put on the defensive.

But let us do more than cheer! The time has not come when we may hail Victory. The enemy is strong. Let's not fool ourselves. There's a tremendous job to be done. -

The more men we put into the front lines-the sooner Victory will be won. You Women of Canada owe it to your

Country-to your men folk-to yourselves -to play your part.

Women are Utgently needed in the Navy, Army and Air Force. You don't require special qualifications to entit! You must be between the ages of 18 and 45, in good bestile, with Grade VIII schooling or the equivalent; and be single, or married without dependent children. Go to any recruiting office.

THE ROYAL TRUST COMPANY -

An Open Letter To The Citizens Of Belleville and District . . . .

#### HIS WORSHIP MAYOR ROLLINS

In our city and district today, war has broken up many hundreds of families. Suden shifts in population have uproated family groups and set them down in unfamiliar surroundings; and broken community contacts.

War has brought many hotity marriages. It has taken husbands and fathers on whom lamilies depend for leadership; has placed added burders on the wife or mather. Wor has created new timoscale problems for hundreds of families . . . In some cases the creased income has only coused timoscial contaison, in other cases, families have had to live or reduced incomes. In your city as well as other cities, were causes repealed only.

Straggling to build up the defences of our city are four organizations of which we are justly proud. I refer to the Solvation Army, the Y.M.C.A., the V.O.N., and the Children's Ald Society. They believe that the preservation of a deem living at Name 31 a viral war obligation, too. They are bringing to the city and district years of experience in belieping the poor and needy out of fracible.

Support them! Give them your most, not your least. Remember that this year, the campaigns are one, and give accordingly.

I know that the good name of Belleville will not be smudged by poor co-operation. When your convasser calls, do your level best. That's all I can ask of any of myr Fellow Citizens.

(Signed)

H. ROLLINS (Mayor)

CANADIANS ARE ALL ALIKE in one important respect. They do their own thinking and get there under their own power. It's a national characteristic.

No pampered or servile people could have built this nation. It took men of gourage and moral fibre to clear the forests, dig the mines—to build our farms and factories, our cities and our towns—to give us a standard of living that: is the eavy of the world. Canada greatess stems directly from the self-reliance and initiative of individual cities. These qualities provide a sure foundation on which to build for tomorrow.

Sir Kingsley Wood, Chancellor of the
Exchequer of Great Britain since 1940,
has passed suddenly of a heart attack and
his death is considered one of the casualties of the war. His demise brought a
deep sense of shock and sorrow to the

deep sense of shock and sorrow to the people of Britain.

His has been the task of raising the money to finance the greatest war in history and the greatest defort of the British people. This task he carried with cheerfulness and the British manfully accepted the burdens he so wisely placed upon them. He held the confidence of the

military power in war-industrialized

Sir Kingsley came up to the Commons from the London County Council and was first elected in 1918 to the House. He early

Italy's Surrender 'a Windfall' Prime Minister Churchill has a wide range of interest. He is not only a former soldier and a statesman, he held the office soldier and a statesman, he need the onice of First Lord of the Admiralty in the last war and in this war has had the leadership of the British people. He is somewhat of an artist with the brush as was indicated

an artist with the origin as was indicated at Casablanca and he is able to lay bricks in the building of a house.

Now his speech on Tuesday shows that he also knows his orchards and fruits like any Englishman. Here is the remark that proves it — a great military and interna-tional fact expressed in the language of an orchardist, "The Italian surrender was

an orcharoust, "Ine Italian surremore was a windfall, but it had nothing to do with the date of harvesting the orchard." Plainly Mr. Churchill has walked through orchards and tasted fruit. He knows much of the mystery of great call-

knows much of the mystery or great variety of great variety of the myster of the myster of a statecraft and also of English words and expression is also a master of many arts and possesses a wide knowledge of the real things that interest men and women.

Therefore his speeches appeal to all. , The applegrower, will be pleased with the Prime Minister's use of the language of the orchard in speaking of the surrend, pass by me as the idle wind, which I regret rold talky.

Mr. Walince Havelock Robb of Abbey
Dawn, Kingston, who is always an exhibitor at Belleville Agricultural Fair in which
he naturally takes a deep interest because
of the importance of the eattle and dairy
industry that centres hereabouts, presented an interesting prize this year. It is
in the form of a scroll beautifully illustrated and is the work of a Kingston artist

### When "Duration" Ends

(Brockville Recorder and Times) (Brockville Recorder and Times)
There seems to be a popular impression that business men recruited for wartime duty in Ottawa and elsewhere will be gired loose from their posts with the greatest difficulty. On the contrary, we believe that they will greet peace with the utmost enthusiaxm and have their grips packed to take the first trains back to their homes and their normal tobr. and their normal jobs.

### How You Look at Danger

Maclean's Magazine Danger is all a malter of how you look at it. A Vancouver man was in the habit of going about his business on a motor-cycle. A friend who came to vist warned hom to be careful 'because 'motorcycles are very dangerous.' The friend who took ack a dark view of motorcycles was an Britain who had shot down pany Jerries and had been shot down himself.

JUST FOLKS (Copywight, 1943, Edgar A. Guest) By EDGAR A. GUEST

GROWTH Time was they were the babies here,

And not so very long ago, In bibs and frocks and pretty socks We watched them start to grow.

The months went winging on their way. We knew when first they walked. By us was heard the first glad word Which they had ever talked.

They were the children of our group. We saw them off to school, Watched them at play from day to day And at the swimming pool.

And those who were the little girls, Pigtailed or curly bow, With smiling eyes, to our surprise, Have soldier husbands now.

Infancy, childhood, youth flown by! And this is what we say
Who've watched them pass: "Alas! Alas!
It seems like yesterday!"

## "Before I Go Away"

I wish I could tell all the good people in Belleville and District abo the local compaign for funds for community service, and what their four agencies de for people in trouble. Somebody will have to de the work we're leaving behind. It just can't be left undens. Over on the other side, our life won't be any bed of roses. It's going to be tough for us, and the airmen and sailors, too. But we'll win. You folks at home have just as hig a job of war-winning to do as we have. What good will victory be if you don't preserve what we're fighting for? We're not fighting for streets or buildings or territory. We're fighting because when we come back we want to live in a city where the little fellow has a chance . . . where every kid gats enough to out . . . where youth has a future and a chance to make good ... where the agod can live in a quiet peace . . . where the family circle is still a secred thing. That's what we'll he fighting for over there - I sure hope the people at home won't let us

### SACRIFICIAL SERVICE

That men will die for something fine Is proof their souls must be divine.

Behold them, land and sky and sea, Pledged to the cause of liberty!

Fighting and bleeding to bestow A freedom they may never know m they may never know;

Defending with a holy zeal A cause more glorious and real

Than any earthly joy or gain
Which for themselves men strive to gain;

Shielding with blood and sweat and toll What mad and evil men despoil; Dying, that ages yet to be . Shall know the joy of being free.

Tis only men with souls divine Would make so brave a battle line.

Brantford Roofing Company Limits
Brantford - Ontario
ARTHUR A. SIELS
285 Coleman St.

Those who go down to the sea in ships risk much for our security ... yet what greater symbol of the nation's safety can be found than these same rulers of the waves?

As they protect against the enemy that would threaten our shores, so Brantford Roofing protects countless homes against the ravage of the elements. But just at present, because strategic materials go into its making, the supply of Brantford Roofing is limited.

Every effort is being made to distribute the available production on an equitable basis in all communities. To simplify inventories and increase supplies, all lines have been standardized on a minimum range of colours and styles.

When Victory is ours and hostilities have-ceased, Brantford Roofing products will again be available in ample supply for civilian use. Plan now for your home's renovation when the war is done, with Brantford Roofing products for security and smartness.

Poor by day and rich by night!
Rich in hopes and dreams and
prayers,
Rich in sieep which puts to flight
All the busy day's affairs,
Soothes the hurt of every sting,
Makes the humblest man a king.

Rich by day! The ways of ease Often spoil man's appetite,
Lead to weakness and disease.
Weary men sleep best at night!
For the hours God meant for rest, Being noor by day is best.

Weariness has guards which keep Fears and spectres grim away. Richest they by night who sleep Till the dawning of the day. Slumber, soothing and secure, Is God's blessing on the poor.

could not expect a finer, more satisfying blend of coffee than Maxwell House. And here's

1. Coffees used in the famous Maxwell House blend are rare, extra-flavor coffees—selected for their special qualities of mellow smooth-ness and full body.

2. This fine blend is reasted by a remark-able process that reasts each coffee bean evenly all through—captures every atom of goodness.

Maxwell House

For fullest coffee value choose Maxwell House every time!

For wartime reasons Maxwell House is new packed in hepr-in as All Purpose Cried and at a lower cost to you. This gried is existable for all ways of making confer-confee pot, percelator or glass coffee maker, If you as a glass coffee maker, you may prefer to heave the bedies a little lenger.

JUST FOLKS (Copywright, 1943, Edgar A. Duest). By EDGAR A. GUEST BALTIMORE ORIOLES

Today upon a maple tree
I saw some living jeweiry!
Two bits of gold, alive and strong,
And gifted both for flight and song, A sign of faith for doubting souls!
To-wit: a pair of orioles.

No monarch's crown or diadem No monarch's crown or chacem Has craftsmanship alike to them. Exquisite were the robes they wore In colors of Lord Baltimore Designed the eye of man to hold, Two lovely gems of black and gold!

Perhaps the good Lord knew that men Would turn to doubting now and then And hurt by grief and pressed by care Lose faith that God is everywhere And so those orioles, gold and black, Were fashiqued just to win us back.

THE SPECTACULAR though steady rise in the demand for O'Keefe's has long indicated a need for vastly enlarged production facilities.

Now — with the completion of arrangements whereby Canada Bud Breweries Limited has become a wholly-owned unit of Canadian Breweries Limited — it is at last possible to devote extra space and equipment to the sorely-needed production of additional O'Keefe's products.

Effective October 1st, 1943, therefore, the present Canada Bud Brewery becomes an O'Keefe's Brewery, under the direct supervision of the O'Keefe brewing staff.

Canada Bud consequently is withdrawn from the market. Canada Bud's employees will become a part of O'Keefe's or of another division of Canadian Breweries Limited.

Home and Fighting Fronts

Home and Fighting Fronts Anything that General Montgomery says is sure of being read for he possesses the gift of speaking with the brevity that is the soul of wisdom. The other day in welcoming troops of the Eritish 5th Curys into the ranks of the 5th Army he said, "If's out here and what we do that keeps fife morals high on the home front. If the morals at home went down we might well."

lose the war."

Britain in the air, on the kind and on the sea, has given, evidence of the high morale of the troops of the British Empire. Their successes have been a great inspiration to the British people, the home front which is the admiration of the world. In the grave days of the late going and the summer of 1940 the British home front summer of 1940 the British home front some property of the state of the property of the summer of 1940 the British home front some front som summer of 1940 the Brittsh bome front was a bulwark of power of spirit to the fighting men whose deeds kept high the morale of the people. Not once in this war has British morale at home wavered. There is invincibility. There is invincibility of spirit and this Britain's home front and her fighting front both have always possessed.

The morale at home will not go down nor will the morale of the fighting front.

### Old Curse Comes Home

(Winnipeg Free Press)

"Garibaldi's Curse" has been mentioned
more than once in these columns, but Mr.
Churchill's reference to it in his Quebec
speech and its timeliness, having regard
to Italy's present plight, justify repetition:

If ever England . . should be so circumstanced as to require the help of an ally, cursed be that Italian who would not step forward with me in

So wrote Garibaldi to Marsini in London in 1854.

Mussolini, despite this, had the audacity to bring both Marsini and Garibaldi into one of his distribes against England. "The Erlitish," he said on February 24, 1941, "are ignorant of the, civilian virtues and proud patriotism of the people who gave the Fatherland Columbus, Garibaldi and the Fatherland Columbus, Garibaldi and

the Fatheriand Columbus, Garibaldi and Maszini."

Muscolini's acquaintance with Garbaldi wiew was evidently limited or he would not have used his name in an attack upon the country which befriended him and his cause. His ignorance of Mazzini was equally embracing. He was undoubtedly unaware, that Mazzini once

### JUST FOLKS (Copywright, 1943, Edgar A. Guest) By EDGAR A. GUEST CONDUCTORS: WIVES

Concerning wives, 'iis hard to guess.'
Instead of 'nor' why some said 'yes.'
Yet, lowe at locterniths laughs,' its said,
For never yet was man so poor,
So clever or so dull a boor,
So peaceful or so fund of strife
But what some girt would be his wife,
Which must explain why married are
Conductors of a Tulinane are

Now they must know when first they

Now they must know when first to view. The stripes upon his coat of hise And note his buttons made of brass. The lonely hours his wife must pass. The lonely hours his wife must pass. The slad her man is paid to roam And seidom spends a night ab home, But leaves the town at hine or ten, With other travelling gentlemen, And when he should be safe in hed Is riding east or west instead.

No hope for happier days appears. Conductors don't reture for years. It to the streamline trains they rise It to the streamline trains they rise And earlier they must start away. And yet, in spite of that, I away. And yet, in spite of that, I away. They've but to meet a damasel fair And ask her such a life to share, Though facing years of loneliness, The biushing mald will answer, 'yes:

"No, madam, NOT the cour!"

Attention Seed Growers

As there seems to be some misunderstanding regarding the manner in which this season's crop of clover and Timothy Seed is to be handled we feel we should make the situation clear to the many farmers from whom we have bought for years.

The Special Products Board of the Federal Government have taken over the Export trade of Clover Seed, and have ruled that this seed must be purchased by licensed dealers, such as ourselves, on a once cleaned best of prices greed upon offer. The seed has been sold that the seed of t

Timothy seed does not come under the above regu-lations and can be sold either cleaned or in the rough state.

Our cleaning plant is licensed and approved by the seed export office and we are authorized to issue Par-ticipation Certificates. All seed delivered to us will be cleaned as quickly as possible and we will make prompt cash returns.

Owing to the shortage of trained help and the need to conserve gasoline and tires we will be unable to see all our old customers but would ask all growers to submit samples of any clovers or timothy seed they have to offer. We feel sure we can pay satisfactory prices as always.

Six times since 1870 the Bank Act under which the Chartered Banks operate has been revised by parliament-six times in that period the activities of the banks have been carefully scrutinized by the people's representatives.

Every ten years the Bank Act has been thus revised. Each one of the six decennial revisions has contributed much to the evolution of the banking system to meet the expanding needs of a developing Dominion.

In 1934 the sixth revision of the Bank Act was made. Fifty memhers of the House of Commons

# We both like Apple Pie and Cheese!

. We of Canada and the United States are the world's outstanding example of "good neighbours".

We are unique in our understanding of one another, in our mutual confidence, in our fellowship.

And the things which make us good neighbours are as basic as our common liking for apple pie and choose.

We speak the same language.

We enjoy the same jokes.

We sing the same songs.

We play the same games.

We work and worship to the same ends.

One of us flying the Union Jack, the other the Stars and Stripes, we both nourish deep in our hearts the same concept of freedom, the same human ideals.

And we share an indomitable determination that no one shall ever take them from us.

Todsy our soldiers fight side by side in all parts of the world. And our citizens work shoulder to shoulder to supply them and support them in their grim task. ### **NEW SCHEDULE** PRESERVES RATIONING

EFFECTIVE SEPTEMBER 30, 1943

Preserves rationing gives the consumer a number of choices both of products and sizes of containers. Because of the wide range of container sizes and the varietion in buying babits across the country it was necessary to put the system into operation and then make adjustments on the basis of experience.

Now that preserves rationing has been in effect for several weeks, it is possible to make some increases in coupon values. The new schedule is announced below and is effective September 20th.

The new doubled ration allowances for molasses, extracted and comb honey will enable consumers in areas where consumption of these products is heavy, to buy more and still have enough for districts where the total demand is light.

The increased ration allowances for corn, cane and blended table syrups and muple syrup are adjusted to bring corpon values more closely into line with the great variety of con-
